ANTIMICROBIAL PROTEIN AND
FUSION PROTEIN

ELECTION & RESPONSE TO RESTRICTION REQUIREMENT

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

ELECTION & RESPONSE TO RESTRICTION REQUIREMENT

In response to the Restriction and Election of Species Requirement mailed October 2, 2003, the Applicants elect with traverse **Group II**, claims 9-19, directed to a fusion protein and the following species: **(A) thionin and (B) chaperonin**.

The traverse is on the basis that the Office has not established that Groups I, II and III are independent and distinct from one another. For example, each Group is directed to similar subject matter pertaining to fusion proteins. Moreover, the Applicants respectfully submit that no undue burden would be imposed on the Examiner in conducting an Examination of all three groups together, because similar subject matter is encompassed by each Group.

In the event that the restriction requirement is maintained, the Applicants respectfully request that the claims of the nonelected groups which depend from or include all the

Reply to Office Action of October 2, 2003

limitations of those of Group II, be rejoined upon an indication of allowability for the elected claims, see MPEP 821.04. Moreover, it is the Applicants understanding that upon an indication of allowability for the elected species, that additional species will be examined.

Accordingly, the Applicants respectfully request that the Restriction and Election of Species be withdrawn and all the claims be examined together.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
